

Arrival:

On arrival we ask our party guests to wait in the car park for your host to come and greet you.

We would ask all guests to arrive 15 minutes prior to the session so that we can start your session on time. Your host will greet you in the car park and children will be given a safety talk before being escorted to the arena where hats will be fitted and your session will begin. Once all of the children have been fitted hats, they will be allocated a pony to share (2 children to 1 pony) according to size.

We will then have a grooming session, where the children will be given the opportunity to decorate their ponies with hair extensions and coloured chinks. This pamper session will last around 15-20 minutes.

Following this, the first group of children will be mounted onto the ponies and be taken for a ride around the farm (weather permitting). We will then return to the arena where the children will dismount and the second group of riders will get their turn to ride.

There is the option for the second group of riders to also go around the farm (weather permitting) or the second group of riders will remain in the arena where we will play some party games such as Grandma's footsteps, Simon Says and Musical Letters, including all of the children. We can be flexible with this section of the party and are happy to work with parents to change e games so that they are age appropriate. We will spend approximately 1 hour of the session riding the ponies. In bad weather the whole session will be spent indoors playing games.

At the end of the session the children will dismount, take hats off and all children will receive a rosette. The instructor will then escort you to the gallery where you are welcome to provide some food and drink for the children. The gallery is available to be used up to 1hr after your party and you may begin setting up 30 minutes before the end of your session.
